

“ Breaking into sash windows is a doddle. Including those nice ones you make.”

Keep the burglar out. Fit Mighton Securibead™ & SBD Kit™

Secure every sash window you make.
Enhance your business reputation.

What is the easiest way to break into a sash window? Pop-out the parting beads using a chisel or screwdriver.

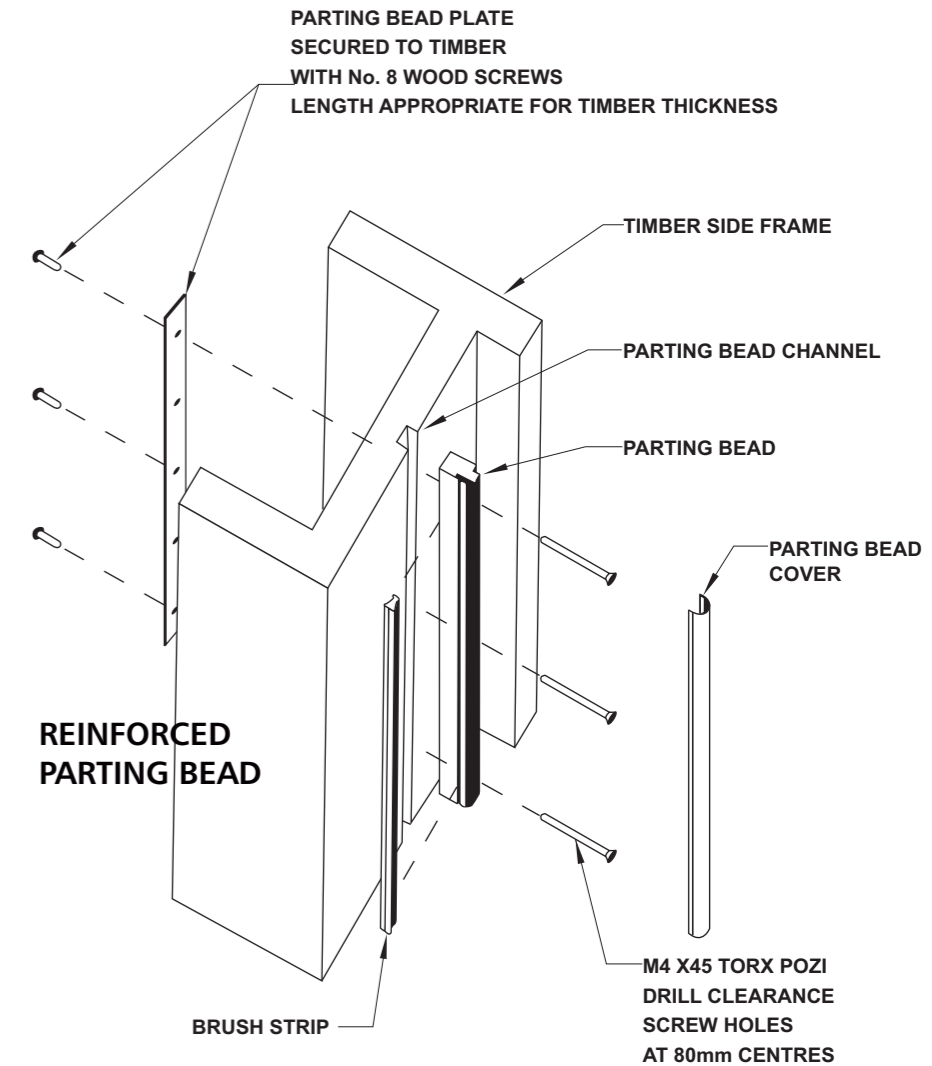

Worldwide, sash windows are the most frequently broken into.

The parting bead is the most vulnerable area. Followed by the meeting rail and bottom rail of the lower-sash.

Simply lock these items down now with the Mighton Securibead™ & SBD Kit™.

Using Mighton Securibead™ & SBD Kit™ prepares you for Secured by Design certification.

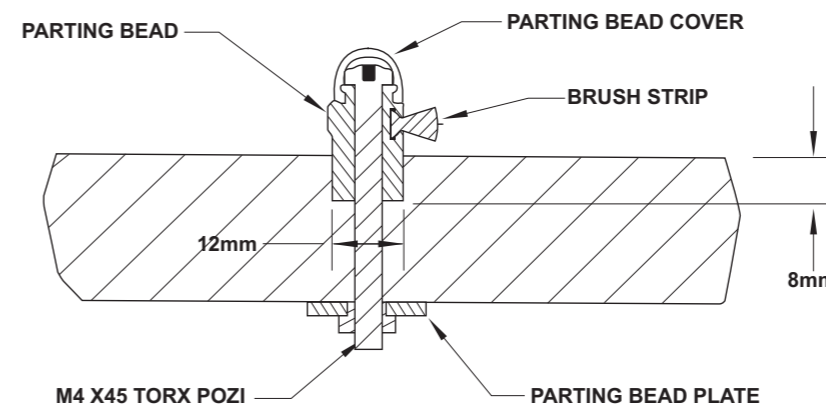

**IN OCTOBER 2008
MIGHTON SECURIBEAD™ &
SBD KIT™ WERE
SUCCESSFULLY TESTED TO
BS 7950**

Bolts used to attach Securibead™ to the back plate are a security type that require a special tool.

The Mighton system can be used on weight balanced or spring balanced windows and consists of:

- Securibead™ & SBD Kit™**
- 2 Securifitch fasteners
- 4 Ventlocks
- 2 Cill locks
- Meeting rail guard
- Bottom rail guard

Secure it with Mighton Securibead™ & SBD Kit™ - BS7950

Give your next customer sash window security and peace of mind.

Securibead™ & SBD Kit™ brings a new dimension to sash window security.
