

Roxil: 10 Year Silicone Wood Protector

Product Description

Roxil: 10 Year Silicone Wood Protector is a liquid, water-based silicone emulsion used to protect wood. The silicone waterproofs the surface and protects the wood from the undesirable effects of moisture which can result in rot and decay. **Roxil: 10 Year Silicone Wood Protector** can be applied by brush or spray.

Benefits

- Reduced organic growth
- Reduction of water uptake
- Improved dimensional stability
- Long lifetime (10+ years on softwood)
- Ready for use

Properties

Appearance	White liquid
Density	1 g/cm ³
Size(s) & Packaging	5 litre jerry cans
Coverage	2 coats each at 5 - 10 m ² per litre
Service life	10+ years
Storage	Store in a cool dry place
Shelf Life	12 months

Application Information

Preparation

Ensure wood is clean and dry before application. Shake well before use.

Application

Apply by brushing or spraying. Two coats should be applied for optimum coverage, the second coat should be applied while the first coat is still wet, typically within 30 minutes.

After application the silicone will penetrate into the wood and form a water repellent barrier. Full water repellency will develop over a period of one month. Do not apply if rain is forecast.

Cleaning

After use clean brushes or sprayer with water.

Roxil: 10 Year Silicone Wood Protector is recommended for use on softwood, including water susceptible species such as pine.
