

Metolux®

2 Part Pre-Mix Wood Filler

Product Data Sheet

Description

Metolux 2 Part Pre-Mix Wood Filler is an innovative two-part high strength wood filler designed to guarantee the proper ratio mix of hardener and resin to provide the strongest repair possible to wood imperfections.

Key Benefits

- Guaranteed ratio hardener/resin mix
- Used with a standard silicone tool and a putty knife, or mixer nozzle option
- Strength of a 2 part mix with the ease of a 1 part filler
- No need for separate hardener tubes
- Weatherproof
- Re-use many times
- Low Odour

Product Usage

Manual Mixing

Or with Mixer

The information and data given is based on our own experience, research and testing and is believed to be reliable and accurate. However, as Chemfix Products cannot know the varied uses to which its products may be applied, or the methods of application used, no warranty as to the fitness or suitability of its products is given or implied. It is the users responsibility to determine suitability of use. For further information please contact our Technical department.

Metolux®

2 Part Pre-Mix Wood Filler

Repair Instructions

1. To ensure proper adhesion the surface must be dry, clean and free from dust oil and grease.
2. Mixing will start the curing process therefore prepare only what can be used immediately.
3. Apply using a spatula or a putty knife leaving the filler slightly "proud" of the surface to allow for sanding.
4. Quick and easy sanding is achieved if the filler is sanded down within 15-30 minutes from mixing and application.
5. The final repair is ready for coating

Gel and Cure Times

Temperature	Gel	Cure
5	10.00	35.00
15	4.35	22.00
25	2.00	13.00

Compressive Strength 43.18 N/mm²
 Tensile Strength 9.74 N/mm²
 Flexural Strength 13.97 N/mm²
