

PRODUCT UPDATE ANNOUNCEMENT

TIMBABUILD EWS

EPOXY WOOD PRIMER

In the coming weeks, **Timbabuild EWS 225ml** will be relaunched in **brand new packaging**, and a **larger better customer value 300ml** size. Once the current stocks of the existing packaging are depleted, we will automatically supply the new model, **packed as 4 units in each outer carton**. The new packaging features a **self-measuring system** which means **no mess, more accurate mixing, stronger packaging and cleaner storage**.

Thank you for your continued support, and we hope these improvements are received as well by your customers, as they were by the visitors at our pre-launch at the Painting & Decorating show last November. **We hope these improvements will prove to be an added purchasing incentive.**

NEW PRODUCT CODE 69909

BETTER VALUE •

NO MESS •

MORE ACCURATE MIXING •

STRONGER PACKAGING •
