Hooklock Plain Knob Standard Arm

Product Data Sheet

Slim 10 mm keep. Check you have space on your meeting rail.
A dual-action hook fastener. The hook pulls the sashes together, reducing draughts, and upward, helping to line up the tops of the sashes for a neater appearance.

1 Key features

- Solid brass, plated
- Traditional design
- Hook pulls the meeting rails together, helping to seal gaps
- **Slim 10 mm keep** that fits most sash rails
- Supplied with a key and screws

Check the meeting rail gap
Check this fastener works with your meeting rail gap, and that you have space on the meeting rail for the **10 mm keep**.

6 Finishes and product codes

Finish	Product code	Finish	Product code
PVD Brass	HOOKLOCKPVD	**Satin Chrome**	HOOKLOCKSC
Lacquered Brass	HOOKLOCK	**Antique Pewter**	HOOKLOCKAP
Satin Brass	HOOKLOCKSB	**Matt Black**	HOOKLOCKBC
Antique Brass	HOOKLOCKABR	**Oil Rubbed Bronze**	HOOKLOCKORB
Polished Chrome	HOOKLOCKCH		

PVD (Physical Vapour Deposition) is a strong, wear-resistant finish with high durability and scratch resistance.

Lacquered Brass will tarnish. It is polished and lacquered, not plated. Lacquer can hinder tarnishing, but with handling it will eventually tarnish and take on an authentic 'used' look.
