UniStop

Installation Instructions

The UniStop is easily fitted to Timber or PVCu Sash Windows. Please read the instructions carefully before installation. We recommend fitting two UniStop's per sash.

## Parts List

A 1 x Riv Nut Insert
B 2 x Insert Units
C 1 x Barrel Unit
**D** 1 x Key
E 1 x Strike Plate
F 2 x Self Drilling Screws

Important: Consideration should be given before fitting to Egress windows. UniStop barrel is 19mm long & 16mm in Diameter. This device must be fitted in a position that allows no more than a 100mm restricted opening. a Rivnut tool is required for PVCu installations.

Ensure the sash is completely closed and locked before starting the installation.

Installation
