

Fitch Fastener Non-Locking

Product Data Sheet

Slim 10 mm keep for double-glazed meeting rails.

Double glazing can shrink the top meeting rail so far that most fasteners will not fit. The slim keep on this solid brass Fitch fastener is designed to overcome that.

1 Key features

- **Solid brass**, plated
- **Slim 10 mm keep** that fits most meeting rails
- Design **pulls the meeting rails together and levels them** when closed
- Supplied with matching screws
- Also available in locking version
- PVD Brass finish available: **PVD (Physical Vapour Deposition)** is a strong, wear-resistant finish with high durability and scratch resistance

3 Product

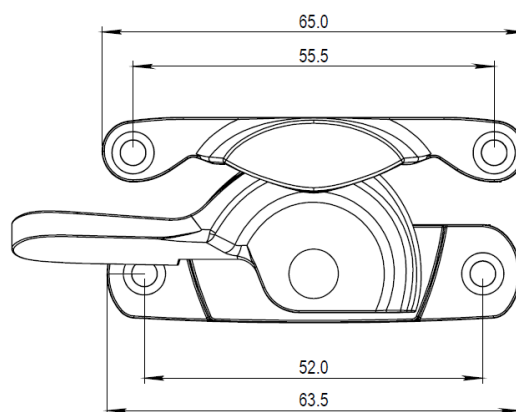

Polished Chrome shown

5 Finishes and product codes

Finish	Product code	Finish	Product code
Lacquered Brass	SBFF	Polished Chrome	SBFFCH
Antique Brass	SBFFABR	Satin Chrome	SBFFSC
Satin Brass	SBFFSB	Oil Rubbed Bronze	SBFFORB
Antique Pewter	SBFFAP	PVD Brass	SBFFPVD

Lacquered Brass will tarnish

Lacquered Brass is **polished and lacquered**, not plated. Lacquer can hinder tarnishing, but with handling it will eventually tarnish and take on an authentic 'used' look.
